

We present new universal set of softboxes

Lastolite - Ezybox II. Softboxes are square, octagonal and those with variable geometry. All have the same on which are mounted three different types of lighting.

- For Speedlights
- For studio lighting
- For Elinchrom Quadra Ranger RX

Ezybox II Square Softbox

The Ezybox II is the world's first softbox designed to fit studio flash, battery operated flashguns and the Elinchrom Ranger Quadra RX. The Ezybox II enables the photographer to carry one softbox which fits all their lighting kit, switching from one to another using simple connectors, without making any adjustments to the softbox itself. Ezybox II softboxes feature an inner and outer diffuser producing a maximum light reduction of two stops. The Ezybox II Square softbox is our lightest softbox ever. Fast to assemble, the softbox simply pops open and is secured using two support rods and our unique Ezybox II softbox frame. The Ezybox II Square is available in three sizes; small, medium and large, and simply requires the correct connection kit depending on your chosen light source(s). Ezybox II Square is available in three sizes 45x45, 60x60 and 90x90 cm.
